

COVID-19 Health & Safety Agreement / Commitment

- SCCDT students 12 years and older must provide proof of double vaccination for COVID-19 before entering 509 Parliament Street or must submit documentation from a licensed physician stating the reason for a medical exemption.
- If a student is feeling sick, they must not attend class*. Please refer to the current public health guidelines and the [updated TDSB screening form](#) when deciding whether you must self-isolate and for how long.
- Students may not attend class if a member of their household is experiencing symptoms of COVID-19, and should refer to the public health guidelines with respect to self-isolation.
- Parents, siblings, visitors, friends, etc. are not permitted to enter the Studio, with limited exceptions – such as parent/guardian assisting a young child.
- Face masks that securely cover the nose, mouth, and chin are required at all times while inside the Studio. 3-ply medical-grade masks are strongly recommended as they are constructed to meet quality standards and have been proven to be substantially more effective than cloth masks.
- AS OF MONDAY FEBRUARY 28th we will require that all students aged 5-11 have received at least one vaccination against COVID-19.

SCCDT / CCDT COVID- 19 Health & Safety Commitments

- We have installed UV-C tubes in our return air ductwork to eliminate virus and bacteria aerosols that potentially circulate via HVAC systems.
- We have maximized fresh air intake.
- Studios are misted with virucide between classes.
- High touch surfaces are disinfected regularly.
- Staff have been fully vaccinated.
- Studio capacity is limited to exceed guideline distancing by more than 50%.

***PLEASE NOTE:** To allow staff to focus on cleaning the studios in between classes, we will no longer be screening for symptoms or doing temperature checks upon arrival. It is up to parents/guardians and students to self-screen prior to arrival – **please do not come to the studio if you are feeling sick.**
